

# NFU Priorities in the Farm Bill

1. Inclusion of a permanent disaster relief fund to cover the shallow losses caused by weather-related disasters but not covered by crop insurance.
2. Mandatory Country of Origin Labeling of meat, fruits and vegetables, peanuts, pecans and macadamia nuts.
3. Interstate shipment of state-inspected meat and poultry products.
4. Payment limit reform including elimination of the triple entity rule and direct attribution of farm program payments.
5. Continuation of the MILC program above current support levels.
6. \$986 million in mandatory funding for the specialty crop industry.
7. \$4 billion above baseline for conservation programs.
8. \$10.6 billion above baseline for domestic and international nutrition programs.
9. Provisions to accelerate commercialization of advanced biofuels, like cellulosic ethanol, by providing grants and loan guarantees to support new biorefineries.
10. Provides producers the ability to decline to be bound by an arbitration clause in a livestock or poultry contract.
